COURSE OVERVIEW

In this course, you will gain an understanding of basic Windchill business administration tasks. You will learn how to create user accounts and groups and how to effectively plan and create information management storage strategies. Other topics will include life cycles, workflows, teams, and configuring domain policies. These skills enable you to configure Windchill PDMLink to meet business needs. After completing this course, you will be well prepared to set up and manage a basic Windchill implementation at your company. At the end of each module, you will complete a set of review questions to reinforce critical topics from that module.

PREREQUISITES

This course is intended for Windchill business administrators and application developers.
