

ETRAGE VIEWER

OVERVIEW

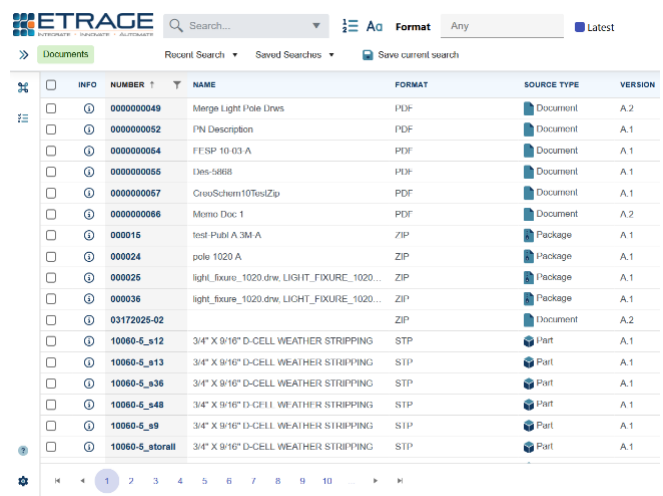

SEARCH, VIEW, AND PRINT DRAWINGS AND DOCUMENTS FROM ANYWHERE

Share drawings and other product design data quickly and easily with the ETRAGE Viewer. The ETRAGE Viewer reduces the time and cost of viewing and printing CAD drawings and other file formats. Attributes can be added automatically from your PDM or PLM system. The user-friendly search engine and document storage system mirrors common internet search systems allowing for quick and easy enterprise-wide adoption.

VIEWER KEY FEATURES

- Web-based interface for both simple and complex searches
- User access can be controlled via Active Directory or independent logins
- Multi-level access and permissions
- Security labels for additional restrictions.
- Easily search by file names or attributes
- Viewing of 3D data with spin, zoom and measure
- Supports diverse data formats: SolidWorks®, AutoCAD®, Inventor®, Creo®, Creo Schematics®, CATIA®, NX®, DXF, STEP, MS Office documents, Text files, Images, PDF files, and others
- Fast indexed search results
- Watermarking of drawings and documents
