

ETRAGE SECURITY STACK

OVERVIEW

CUSTOMIZED CYBER SECURITY TO KEEP YOUR PLM DATA SAFE

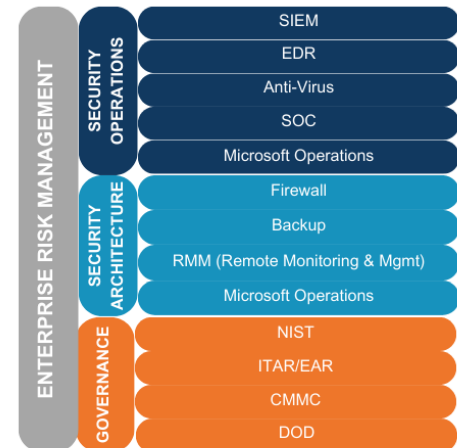

In the same way ETRAGE can help streamline complicated, disjointed PLM systems, we offer the same for your IT Security needs.

Our simple stack of options allows you build a customized tower of solutions to mitigate risk and increase reliability of all your software needs.

VIEWER KEY FEATURES

- Web-based interface for both simple and complex searches
- User access can be controlled via Active Directory or independent logins
- Multi-level access and permissions
- Easily search by file names or attributes
